

# Mahmoud Assran (Mido)

Montreal, QC, Canada

mahmoud.assran@mail.mcgill.ca

midoassran.ca

## Overview

- Final year PhD student at McGill University and Mila, and Visiting Researcher at Meta AI (FAIR) investigating self-supervised representation learning of visual features.
- Strong first-author publication record in top-tier conferences and journals: ICML-19,20, NeurIPS-20, Proc. IEEE-20, IEEE TAC-21, ICCV-21 Oral, ECCV-22.
- Demonstrated theoretical (T) and empirical (E) contributions: (T) provided first non-convergence proof of Nesterov Momentum with mini-batch gradients under strong convexity (ICML-20); (E) currently hold the state-of-the-art in semi-supervised classification on ImageNet-1K (Masked Siamese Networks, ECCV-22).
- Active in professional service: served as an Expert Reviewer at NeurIPS-21 and ICML-21, received Best Reviewer awards at NeurIPS-20, AAAI-20, ICML-20,21.

## Senior Collaborators by Subject Matter

<i>Representation Learning</i>	Armand Joulin, Ishan Misra, Mike Rabbat, Nicolas Ballas, Pascal Vincent, Pitor Bojanowski
<i>Large-scale Optimization</i>	Mikael Johansson, Mike Rabbat, Nicolas Ballas, Nicolas Loizou
<i>Distributed RL</i>	Joelle Pineau, Joshua Romoff, Mike Rabbat, Nicolas Ballas

## Research Experience

Facebook, AI Research	2017–present
Visiting Researcher, PhD	2019–present
Research Assistant, PhD	2018–2019
Research Intern, PhD	Summer 2018
Graduate Researcher	2017–2018
McGill, Computer Networks Research Lab	Summer 2016
Undergraduate Researcher in Engineering	
Manulife, RED Lab	Summer 2015
Solutions Prototype Developer	

## Education

PhD, Electrical and Computer Eng.	2018–present
McGill University, Mila – Quebec AI Institute, Montréal, Canada	
Advisors: Mike Rabbat, Mark Coates	
CGPA: 4.0/4.0	
Doctoral Awards:	
\$150,000 Vanier Scholarship, NSERC	
\$105,000 Alexander Graham Bell Scholarship, NSERC	
\$72,000 McGill Engineering Doctoral Award	
\$48,000 Les Vadasz Doctoral Fellowship	
\$3,000 Graduate Mobility Award	

MEng, Electrical and Computer Eng.  
McGill University, Montréal, Canada  
Advisor: Mike Rabbat  
Graduate Excellence Fellowship  
CGPA: 3.9/4.0

2017–2018

BEng, Electrical and Computer Eng.  
McGill University, Montréal, Canada  
Advisor: Mike Rabbat  
Dean's Honours & Top 5% of Faculty  
CGPA: 3.9/4.0

2012–2016

## Conference & Journal Papers

- [14] M. Assran, M. Caron, I. Misra, P. Bojanowski, F. Bordes, P. Vincenet, A. Joulin, M. Rabbat, N. Ballas.  
**Masked Siamese Networks for Label-Efficient Learning.**  
European Conference on Computer Vision (ECCV), 2022 (to appear).
- [13] PA. McRae, P. Parthasarathi, M. Assran, S. Chandar.  
**Memory Augmented Optimizers for Deep Learning.**  
International Conference on Learning Representations (ICLR), 2022.
- [12] M. Assran, M. Caron, I. Misra, P. Bojanowski, A. Joulin, \*N. Ballas, \*M. Rabbat.  
**Semi-Supervised Learning of Visual Features by Non-Parametrically Predicting View Assignments with Support Samples.** (*Oral, Top 3% of papers*)  
International Conference on Computer Vision (ICCV), 2021.
- [11] M. Assran, M. Rabbat.  
**Asynchronous Gradient Push.**  
IEEE Transactions on Automatic Control (IEEE TAC), 2021.
- [10] M. Assran, A. Aytekin, H. Feyzmahdavian, M. Johansson, M. Rabbat.  
**Advances in Asynchronous Parallel and Distributed Optimization.**  
Proceedings of the IEEE (Proc. IEEE), 2020.
- [9] M. Assran, M. Rabbat.  
**On the Convergence of Nesterov's Accelerated Gradient Method in Stochastic Settings.**  
International Conference on Machine Learning (ICML), 2020.
- [8] M. Assran, J. Romoff, N. Ballas, J. Pineau, M. Rabbat.  
**Gossip-based Actor-Learner Architectures for Deep Reinforcement Learning.**  
Neural Information Processing Systems (NeurIPS), 2019.
- [7] M. Assran, N. Loizou, N. Ballas, M. Rabbat.  
**Stochastic Gradient Push for Distributed Deep Learning.**  
International Conference on Machine Learning (ICML), 2019.
- [6] M. Assran, M. Rabbat.  
**An Empirical Comparison of Multi-Agent Optimization Algorithms.**  
IEEE Global Conference on Signal and Information Processing (IEEE GlobalSIP), 2017.

## Workshop Papers

- [5] M. Assran, N. Ballas, L. Castrejon, M. Rabbat.  
**Contrastive Pre-Training with Task Information.**  
Self-Supervised Learning Workshop, NeurIPS, 2020.

- [4] M. Assran, N. Loizou, N. Ballas, M. Rabbat.  
**Stochastic Gradient Push.**  
Systems for ML Workshop, NeurIPS, 2018.
- [3] M. Assran, M. Rabbat.  
**Convergence of Asynchronous Subgradient Push Under Bounded Delays.**  
Workshop on Advances in Distributed and Large-Scale Optimization, ECC, 2018. *\*Invited.*

## Preprints

- [2] S. Sodhani, O. Delalleau, M. Assran, K. Sinha, N. Ballas, M. Rabbat.  
**A Closer Look at Codistillation for Distributed Training.**  
Preprint, 2020.

## Theses

- [1] M. Assran.  
**Asynchronous Subgradient Push: Fast, Robust, and Scalable Multi-Agent Optimization.**  
Masters Thesis, McGill University Libraries, 2018.

## Professional Activities

### Conference Reviewing

European Conference on Computer Vision (ECCV)  
2022 Emergency Reviewer

International Conference on Machine Learning (ICML)  
2021 Expert Reviewer (*Best Reviewer Award*)  
2020 Reviewer (*Top Reviewer Award*)  
2019 Reviewer

Neural Information Processing Systems (NeurIPS)  
2021 Expert Reviewer  
2020 Reviewer (*Best Reviewer Award*)  
2019 Reviewer

Association for the Advancement of Artificial Intelligence Conference (AAAI)  
2020 Reviewer (*One of 12 Outstanding Reviewers Award*)

International Conference on Learning Representations (ICLR)  
2022 Reviewer  
2021 Reviewer

International Conference on Artificial Intelligence and Statistics (AISTATS)  
2022 Reviewer

IFAC World Congress  
2020 Reviewer

### Journal Reviewing

Automatica  
Journal of Artificial Intelligence Research (JAIR)  
SIAM Journal on Optimization (SIOPT)

IEEE Transactions on Automatic Control  
 IEEE Transactions on Signal Processing  
 IEEE Transactions on Control of Network Systems  
 IEEE Transactions on Signal and Information Processing over Networks  
 IEEE Signal Processing Magazine  
 ReScience ICLR Reproducibility Challenge

## Community Service

Youth Engagement Through Engineering (YETE) 2020–present

*Co-Founder and Managing Director*

Founded a not-for-profit corporation to benefit Canadian communities by advancing youth education and facilitating pathways for youth to post-secondary education; especially for indigenous youth in Quebec. To date, during the COVID-19 pandemic, we have developed and piloted a successful online after-school program at FACE high school in the English Montreal School Board (EMSB), focused on project-based learning and constructivist learning methodologies.

Engineers Without Borders, Youth Engagement 2013–2020

*Director & Facilitator*

Lead the Youth Engagement Venture in the Engineers Without Borders Montreal chapter. Developed an interdisciplinary semester-long program and taught high school students, in class, once a week, for their entire school semester. Personally delivered this curriculum, with the support of my team, at 5 different schools in the English Montreal School Board (EMSB), as well as at an indigenous school, on the Kahnawake Mohawk Reserve. Worked closely with school boards, students, teachers, and principals to maximize learning outcomes. Provided pro bono consulting services for the McGill Engineering Department and the McGill Administration and Enrolment Services to develop culturally relevant education programs for indigenous high school students with the ultimate goal of increasing post-secondary enrolment, and established several long-term collaborations. Also provided pro bono consulting services for the EMSB to integrate more project-based learning across schools in Montreal.

International RoboCup 2018

*Judge (Poster & Presentations)*

Conducted interviews with ~60 international teams from over 30 countries, and judged poster presentations to assess qualities such as novelty, team-working skills, poster design, and technical impact.

Nonlinear Optimization (MATH 560) 2018

*Grader*

Served as a grader for Prof. Tim Hoheisel's graduate non-linear optimization class in the math department at McGill University. Graded students' proofs in assignments and midterms.

Signals and Systems (ECSE 221) 2015, 2016

*Official Final Exam Review Facilitator*

At the request of the department's student society, I volunteered to prepare and conduct the final exam review session for the Signals and Systems (ECSE 221) course at McGill University, for two consecutive years. The sessions typically had ~40 students and lasted about 6 hours. We stepped through theoretical topics and practice problems in this time.

## Honours & Awards

<u>Vanier Canada Graduate Scholarship</u> <i>NSERC   \$150,000</i>	2020
Awarded to only 9 doctoral students in Canada in the Computing Sciences over the previous 4 years; the Vanier CGS plays an important role in fulfilling the Government of Canada's Science and Technology strategy to promote the development and application of leading-edge knowledge, support the development of a world class workforce, and attract and retain the world's top graduate students. Awarded to doctoral students who have demonstrated strong leadership skills and a high standard of scholarly achievement in graduate studies in the social sciences and humanities, natural sciences and engineering, and health.	
<u>Alexander Graham Bell Canada Graduate Scholarship</u> <i>NSERC   \$105,000</i>	2020
Ranked 16 <sup>th</sup> out of 1878 doctoral applicants in Canada pursuing research in the natural sciences and engineering. Awarded to the top-ranked doctoral students in Canada, to ensure a reliable supply of qualified personnel to meet the needs of Canada's knowledge economy.	
<u>Les Vadasz Doctoral Fellowship</u> <i>McGill University   \$48,000</i>	2018
Established in 2006 by the Vadasz Family Foundation to recruit outstanding students into the Faculty of Engineering's doctoral degree program.	
<u>McGill Engineering Doctoral Award</u> <i>McGill University   \$72,000</i>	2018
This award aims to recruit the best and brightest new doctoral students from all over the world. Selection for this award is based on the excellence of a student's academic and research record, including publications, presentations and his or her potential to make a major impact on the quality of research in the Faculty of Engineering at McGill University and in the field of engineering.	
<u>Graduate Mobility Award</u> <i>McGill University</i>	2018
To support student engagement in international research experiences outside of McGill, this guaranteed voucher for the Graduate Mobility Award (GMA) helps cover expenses associated with a visit/stay at a research lab, field work abroad, and/or visit with a research collaborator.	
<u>Undergraduate Student Masters Award</u> <i>McGill University   \$35,000</i>	2017
Competitive recruitment funding to assist in attracting and retaining high caliber undergraduate students with demonstrated academic excellence, as well as applied research experience, into the Faculty's research Graduate Programs.	
<u>Graduate Excellence Fellowship</u> <i>McGill University</i>	2017
Nomination for this award is at the discretion of the Department or School. Selection for this award is based on the excellence of a student's academic and research record.	
<u>Rhodes Scholar Finalist</u> <i>University of Oxford</i>	2017
One of 12 finalists selected for three available Rhodes Scholarships, an international postgraduate scholarship to study at the University of Oxford.	
<u>Ian McLachlin Prize for Entrepreneurship in Engineering</u> <i>McGill University</i>	2017
Established in 1998 by Ian McLachlin, B.Eng. 1960, to encourage Engineering students to undertake Entrepreneurial Studies. Awarded by the Faculty of Engineering.	

<u>Dean's Honour List</u>	2014, 2015, 2016, 2017
<i>McGill University</i> The Dean's Honour List for undergraduate students recognizes those who rank in the top 10% of the Faculty of Engineering, based on the combined GPA for all courses taken during the Fall and Winter terms.	
<u>Les Vadasz Award in Engineering</u>	2016
<i>McGill University</i> Awarded annually, by the Faculty of Engineering, to a student based on high academic standing with a preference given to an interest in, and contribution towards, engineering sustainability and/or design.	
<u>Accenture Prize in Engineering and Science</u>	2016
<i>McGill University</i> Awarded by the Faculty Scholarships Committees, upon recommendation of the respective departments, on the basis of academic excellence and demonstrated leadership qualities.	
<u>Faculty of Engineering Scholarship</u>	2016
<i>McGill University</i> Established in 1992 by the University to provide awards based on academic achievement to students in the top 5% of the Faculty. Granted by the Faculty of Engineering Scholarships Committee based on good academic standing.	
<u>Undergraduate Student Research Award</u>	2016
<i>NSERC</i> Undergraduate Student Research Award, granted by the university and the Natural Sciences and Engineering Research Council of Canada, based on the student's academic record, research aptitude, and merit.	
<u>John Howard Ambrose Award</u>	2016
<i>McGill University</i> Awarded by the Faculty of Engineering Scholarships Committee on the basis of merit to engineering students.	
<u>IEEE Signal Processing Society Winter School Scholarship</u>	2016
<i>IEEE Signal Processing Society</i> Awarded by the IEEE Signal Processing Society on the basis of merit to engineering students.	
<u>John Green Memorial Award</u>	2016
<i>McGill University</i> For the student with highest standing in the penultimate year of Honours Electrical Engineering. Awarded on the recommendation of the Department.	
<u>1st Place Waterloo Hardware Hackathon</u>	2015
<i>Google, O'Reilly, PCH   \$55,000</i> (Awarded \$5000 cash scholarship and \$50,000 in product services; e.g., manufacturing, incorporation fees, etc.). Developed a solution and a prototype to provide Internet access to developing communities by utilizing a distributed data mesh with an offline search engine.	
<u>Christie Steinmetz Award</u>	2014
<i>McGill University</i> Awarded to a second year student in Electrical Engineering on the basis of academic performance and demonstration of exceptional promise as an engineer. Awarded on the recommendation of the Department.	

McGill University

Awarded by the Faculty of Engineering to undergraduate students who have completed at least one year of the B.Eng. program on the basis of high academic standing.

**Selected Talks**Masked Siamese Networks for Label-efficient Learning

2022	New York City, US	New York University CILVR Seminar *Invited Talk
2022	New York City, US	Columbia University VIGR Seminar *Invited Talk
2022	Online	Facebook AI Research East Coast All Hands
2022	Online	Facebook East Coast Computer Vision Group
2022	Online	Facebook EMEA Computer Vision Group

Semi-Supervised Learning of Visual Representations

2021	Online	International Computer Vision Talks *Invited Talk
2021	Online	International Conference on Computer Vision
2021	Online	Facebook SSL for Video Group *Invited Talk
2021	Online	Facebook GCD (AI Scaling) Group *Invited Talk

Contrastive Pre-Training with Task Information

2020	Online	Self-Supervised Learning Workshop, NeurIPS
2020	Online	Montreal MLOpt Research Group
2020	Online	Facebook AI Research Global All Hands

On the Convergence of Nesterov's Accelerated Gradient Method in Stochastic Settings

2020	Online	International Conference on Machine Learning (ICML)
2020	Montreal, CA	Montreal MLOpt Research Group

Gossip-based Actor-Learner Architectures for Deep Reinforcement Learning

2020	Online	Aggregate Intellect (ai.science) *Invited Talk
2020	Online	Mila RL Reading Group *Invited Talk
2019	Vancouver, CA	Neural Information Processing Systems (NeurIPS)
2019	Montreal, CA	Montreal AI Symposium (Top 10% of Accepted Papers)

Advancing Artificial Intelligence: Learning Over Networks \*Invited Talk

2019	Winnipeg, CA	Indigenous Services Canada, NIITA
------	--------------	-----------------------------------

Youth Engagement through Project-Based Learning \*Invited Talk

2019	Montreal, CA	English Montreal School Board Teachers' Professional Development
------	--------------	--

Stochastic Gradient Push for Distributed Deep Learning

2019	Long Beach, US	International Conference on Machine Learning (ICML)
2018	Montreal, CA	Systems for ML Workshop, NeurIPS

Convergence of Asynchronous Gradient Push under Arbitrary Bounded Delay

2019	Pacific Grove, US	IEEE Asilomar Conference *Invited Talk
2018	Limassol, Cyprus	European Control Conference (ECC) *Invited Talk

## Open-Source Contributions

<u><a href="#">facebookresearch/msn</a></u> <i>GitHub Stars: &gt;300</i> <i>Code to reproduce results in our work on self-supervised learning with Masked Siamese Networks.</i>	2022
<u><a href="#">facebookresearch/suncet</a></u> <i>GitHub Stars: &gt;400</i> <i>Code to reproduce results in our work on semi-supervised learning of visual features with PAWS.</i>	2021
<u><a href="#">facebookresearch/stochastic_gradient_push</a></u> <i>GitHub Stars: &gt;100</i> <i>Code to reproduce results in our work on distributed deep learning with Stochastic Gradient Push (now implemented in the PyTorch fairscale library with over 1800 GitHub stars).</i>	2019

## Selected Media Coverage

<u><a href="#">Venture Beat   Kyle Wiggers</a></u> <i>Facebook details self-supervised AI that can segment images and videos.</i>	2021
<u><a href="#">TechCrunch   Devin Coldewey</a></u> <i>Computer vision inches toward ‘common sense’ with Facebook’s latest research.</i>	2021
<u><a href="#">SiliconANGLE   Mike Wheatley</a></u> <i>Facebook enables self-supervised learning for computer vision AI.</i>	2021

## Software Projects

<u><a href="#">Hitch   Distributed Algorithms and Mesh Networks</a></u> <i>Media coverage: <a href="#">Farstuff Podcast</a> </i> Won the Google-PCH Hardware Hackathon in Kitchener-Waterloo. Developed a distributed mesh network with a tree-based topology management and routing algorithm, a Chord distributed hash table, and a distributed search engine. The goal of the project is to develop a novel full-stack solution to provide connectivity in remote communities. I presented a proof of concept at the 2015 O'Reilly SOLID Conference, and completed the first prototype in 2016. The project was featured in several media outlets, including an interview with the Farsutff Podcast.	2015
<u><a href="#">Fletcha   Social IOS Application</a></u> <i>Apple App Store</i> Developed an iPhone application with a novel triangulation algorithm allowing friends to find each other at large outdoor venues or music festivals. The algorithm computes a triangulation angle in real time, rotating an arrow on the screen pointing a user to their friend. The application was available on the Apple App Store for several years.	2014

## **Extracurricular Interests**

### Soccer

I love to play soccer and, in my youth, had the honour of representing the province of Saskatchewan at the Canada Games and Western Canada Games broadcast on TSN. I also benefited from short training camps with Major League Soccer academy teams such as the Vancouver Whitecaps, the Montreal Impact, and Real Salt Lake FC, and competed in friendlies against EFL Championship academy teams such as Luton Town FC. I also played the 2012 and 2013 preseasons with the McGill University Men's Varsity Soccer Team.

### Tennis

I also love to play tennis, and competed at the Rogers Junior Nationals Competition twice, on one occasion as the second seed from the province of Saskatchewan, and on the second occasion as the first seed. I am a certified Tennis Canada instructor now.

### Running

I also enjoy running, and spent a semester training with the McGill University Varsity Track Team in long-sprints. During the pandemic, I also discovered a newfound passion for leisurely long-distance running.
